I greet you in the name of our Lord and Savior Jesus Christ. I am thankful to serve as the moderator of our historic and prestigious association. I am confident that our service and commitment to the Kingdom of God will continue to be a blessing to the growth of our member churches and the entire community.

The purpose of today's workshop is to conduct a risk assessment in order to prepare us for our strategic plan for 2020. The theme of today's workshop is "Counting the Costs," taken from Luke 14:25-34. We must be diligent in assessing the various risks related to our association regarding our properties, programs, and personnel. This process will be necessary in order for us to be effective in fulfilling the mission of the association. This means that we need to carefully examine the information contained in our constitution/by laws, mission, core values, responsibilities, and our connections with all other groups affiliated with the Reedy River Baptist Association, Inc.

Our facilitator, Mr. Curtis Askew, is highly qualified to lead our assessment and discussion for today. He is the principal of Data N'Gine, a data analysis and research company located in Greer, SC. He has over 30 years of experience in assessing and guiding strategic planning with governmental entities, universities, non-profits, and churches. I am confident that our local churches will be able to use his services as well in developing their respective strategic plans. He also can be reached at [grvllaskew@yahoo.com](mailto:grvllaskew@yahoo.com).

In closing, I need each executive officer, committee member, and delegate to encourage full participation in our upcoming meetings. It is important that we receive as much input as possible in order for the strategic planning process to be a success. I would like us to present our strategic plan at our annual session in September 2020.

Thank you in advance for your participation and support today. If you have any questions, please feel free to contact me at [pastorboyce@mtmanuel.org](mailto:pastorboyce@mtmanuel.org) or 864-232-5152.

Sincerely,

Dr. Tony Boyce
